

Dear family in Jesus,

Greetings to you in this joyous holiday season, of remembering our Lord coming into the world to save sinners from eternal death and made them holy to be with Him for eternity. We are most excited about the growth we are experiencing, but at the same time sensitive to be more effective models for our new converts so they can grow in the fear of the Lord. We feel if the fragility of our advancement is overlooked can cause disruption or stagnate the positive out-reach in leading the future potentials converts for His kingdom growth. We are in a highly critical stage of church planting progress in developing discipleship, building to enlarge the church core membership, and establish church's young leaders. We have begun a venture to mentor six men for church leadership, trusting the Lord to complete the task in a couple of years. Our adversary does not like it and already attacking to discourage one of the young man and his family. We earnestly covet your prayers for these men even more so.

The economic desperation is effecting our communities drastically in a negative way, but in the midst of the dark background of many lives lost, substance abuses escalating, homicide rising and suicide rate soaring, God is answering prayers by saving and changing lives. His grace is much more abounding. Examples: Curtis and Phil, their phenomenal testimonies that they recommitted their lives to the Lord after they lost their aunt (only mom). They have passionate desire to become promenade leaders at the church. Mable requested prayer for a niece (Delores) in Gallup New Mexico area a year ago. She came to church and shared that she accepted the Lord in jail a year ago. Delores never drank until she lost her only daughter who was 16 years old. Her grieving became unbearable and turned to alcohol. After incarcerated for DWI, she started to read the bible and accepted the Lord as her Savoir. Studying the word of God she shared and taught the bible with her inmate. She was able to reach and helped many there. She is now release and has a consuming desire to open a Christ-centered restoration center for homeless ladies in Gallup, which is becoming a reality with the help of many through prayers, physical and financial means.

Our family greets you all "Merry Christmas and a Happy New Year"! We appreciate your prayers and financial support you give for very specific need for us. Thank you for being much appreciated family members to us in Christ for eternity. We believe it takes commitments, availability and perseverance to make changes for the Lord's sake and you continue to sustain us by the power of God through your prayers for the nineteen years of minister together. We are more motivated with passion to continue ministering for His sake. All is well with our immediate family. Alana is one of the Sunday school teachers at Mesa View Baptist Church. Avery is working in Flagstaff AZ. He has a job which educates in an architectural field. Abby's job relates in completion of her education and desires to continue her studies to achieve a further degree. Angie and her family are still living in Albuquerque, NM. Her husband Clifton changed job which requires more driving and time away from the family. Pray for Clifton's safety on the road and their relationship with God to bring the family closely together as they grow in the Lord. I have one major need: My computer got a virus and got completely fried, all info is lost, and the only contact is 1-928-221-3677.

Yours in Christ, Missionary-Willie Tsosie
